FXCM PRO

PROJECT ROLE: DESIGN + DEVELOPMENT

A Leucadia Company

FXCM has been a leading provider of online FX and CFD trading since 1999 and is a part of Leucadia. Leucadia Investments is part of the merchant banking arm of Jefferies Financial Group. FXCM's membership in the Leucadia family of companies helps FXCM improve the services we provide to our clients. [Learn More](#)

API Solutions

FXCM's matching engine is optimal for retail brokers looking to leverage FXCM's scale:

- FXCM customers enjoy optimization in cash deployment through cross collateralization of their FX and CFD PnL. All customer positions are netted into one account, allowing for more efficient use of corporate cash.
- Through FXCM's scale as a leading provider of retail FX, FXCM is able to offer ticket sizes as low as 1k across all currency pairs on offer, with no additional fees.
- Leverage the FXCM technology team's ability to help optimize the connection between your clients and your servers.
- FXCM's FX model, and enhanced index and commodity CFD model is ideal for automated traders seeking a better execution experience.

Institutional team covers all inquiries on a 24/5 basis and operate from offices in New York, Europe and Asia.

DISCLOSURE

Live Spreads Widget: When static spreads are displayed, the figures are time-weighted averages derived from tradable prices at FXCM from July 1, 2018 to September 30, 2018. Spreads are variable and are subject to delay. The spread figures are for informational purposes only. FXCM is not liable for errors, omissions or delays, or for actions relying on this information.

Prime Brokerage

FXCM Prime caters to those customers who need market data and execution access across multiple trading venues, and who wish to settle such activity in one, centralized source, through one account. Our proprietary back office collects all trades done across a variety of ECN and single bank trading venues, providing clients a holistic view of their positions. Pre-trade and post trade credit checks ensure efficient and effective allocation of net open position (NOP) utilization.

INDEPENDENT AND UNBIASED PRIME SERVICES

All FXCM Prime customers execute user agreements with each trading venue, paying trading commissions directly to each ECN. FXCM earns revenue through commissions collected from pre-agreed clearing fees. As a result, FXCM does not mark-up third party trading venues or receive trading "kickbacks" generated by third party ECNs. FXCM Prime behaves as does a tier one clearer, and thus is truly agnostic to your choice of trading venues.

CENTRALIZED CLEARING

Maker and taker sessions available to trade through multiple execution venues such as Currenex, EBS, FastMatch, FX All, Hotspot, Integral OX, SpotEX and several other ECN venues, as well as single bank platforms. All trading PnL collates into FXCM's proprietary back office where net positioning and PnL is displayed across all trading channels.

SINGLE NOP ALLOCATION

Pre-trade risk management solutions performed on either maker and/or taker sessions allow our customers the ability to manage one

DESIGNED FOR

FXCM Prime allows customers with a minimum balance of over \$250,000 and no asset requirement. Specifically designed for:

Historical FX and CFD bid/ask prices and application programming interfaces (APIs) let you develop, backtest, and automate trading strategies in a wide-range of software environments. Order flow, volume, trader sentiment, and other ready-to-go trading tools turn FXCM data into powerful market insights. Request data by filling out the client inquiry form.

PROJECT ROLE: DEVELOPMENT

WHO I AM

Web Developer with 5 years of experience in creating 100+ landing pages and promotional banners, including porting them to various international sites in a multitude of languages. I worked on a team creating 20+ new sites, taking them from Ideation to final implementation. I coded multiple modules and templates, and also took part in updating outdated sites to new modern scalable frameworks. I worked hand in hand with Art Directors and Project Managers to accomplish the above in a timely manner that would help generate lead and bring in new clients, accomplishing the mission of our team

WHAT I CAN DO FOR YOU

Design, develop, and deploy both front-end and back-end applications and websites.
